whimsical animals to delight children. From Marian Behr.

amusing paper animals are fun to make and will be loved by your favorite child! Heads and bodies are balloons of assorted sizes and shapes covered with papier-mâché to create animals ranging in height from the 10½" dog to

the 23" bird. Arms, legs, necks, and noses are cardboard tubes; all other pieces are flat cardboard. Fanciful designs are in tempera paint with string adding dimension to some outlines. See *Papier-Mâché Animals*, page 54.
